

CAPABILITY STATEMENT

**Security advisory.  
Close protection.  
Specialist capability.**

Trusted advice. Connected capability. Discreet execution.

## THE ADVISORY

# Protective decisions should begin with judgement, not a pre-set solution.

Viktor Advisory provides discreet, independent security advice alongside operational capability across close protection, security risk, travel security, protective intelligence and specialist requirements.

### OUR POSITION

**Independent judgement.**

**Operational capability.**

**Trusted specialist networks.**

### PURPOSE

We work with executives, private clients, families and organisations requiring clear advice and proportionate security solutions around people, movement, residences, travel and risk.

### WHAT WE DO

Each engagement begins by understanding the individual, environment, objective and concern. From there, Viktor Advisory assesses risk, defines the requirement and develops a proportionate approach across advisory, operational and specialist capability.

### WHY THIS MODEL WORKS

Independence remains central. Viktor Advisory is not built around forcing a pre-set solution. Where operational support is required, the same judgement carries through into planning, coordination and delivery - providing continuity from understanding the problem through to implementing the solution.

## CAPABILITIES

# Advisory-led. Operationally capable.

Built for private clients, family offices, executives and organisations with complex security requirements.

01

**CLOSE PROTECTION**

Discreet protection, advance planning and tailored support for principals, executives and families.

02

**SECURITY RISK ADVISORY**

Independent assessment and practical guidance to identify, understand and manage security risk.

03

**TRAVEL SECURITY**

Planning, advance work and protective support for domestic and international travel.

04

**RESIDENTIAL SECURITY**

Assessment and planning across physical security, technology, procedures and personnel.

05

**PROTECTIVE INTELLIGENCE**

Information-led assessment and monitoring supporting protective decision-making.

06

**SECURE MOVEMENTS**

Journey planning, routes, vehicles, drivers and protective movement coordination.

07

**INVESTIGATIONS**

Discreet investigative capability supporting private, corporate and security-related matters.

08

**TOURING & EVENT SECURITY**

Protective planning and operational support for talent, executives, events and movements.

09

**SPECIALIST CAPABILITY**

Access to vetted specialist personnel and complementary capability in Australia and internationally.

## PRINCIPAL

# Operational experience. Advisory perspective. Trusted networks.

## Jash Singh | Founder & Principal

Jash brings experience across specialised policing, operational leadership, close protection and security risk advisory in Australia and New Zealand. He has supported complex operations across metropolitan, remote and high-consequence environments, as well as private clients and UHNW principals across close protection, protective surveillance, residential security, secure movements, travel and advance operations. Viktor Advisory combines that operational experience with independent judgement and trusted specialist capability.

### POLICING & LEADERSHIP

Specialised policing experience across Australia and New Zealand, including tactical roles and leadership from high-tempo metropolitan environments to remote and high-consequence locations.

### CLOSE PROTECTION

Operational experience supporting UHNW principals and families across close protection, protective surveillance, residential security, secure movements, travel and advance operations.

### SECURITY & RISK

Formal qualifications across security risk management, investigations, security management, WHS and leadership.

### NETWORK & COORDINATION

Experience coordinating protective operations and working with specialist personnel and providers across Australia and internationally.

### APPROACH

Relationships, discretion, sound judgement and proportionate delivery sit at the centre of every engagement.

## ENGAGEMENT MODEL

# Understand. Assess. Plan. Deliver.

01

**UNDERSTAND**

Objectives, operating environment, individual circumstances and security concerns.

02

**ASSESS**

Risk, vulnerabilities, protective requirements and available options.

03

**PLAN**

A tailored approach combining advisory, operational and specialist capability as required.

04

**DELIVER**

Coordinated execution through appropriate personnel and specialist capability.

## WHAT GUIDES THE WORK

**LOYALTY**

Commitment to the client, the role and the people trusted to deliver.

**DISCRETION**

Quiet professionalism, measured presence and respect for privacy.

**EVOLUTION**

Continuous refinement as risk, context and capability change.

# Independent advice. Operational capability. Trusted reach.

Viktor Advisory combines independent advisory with practical delivery, allowing each requirement to be considered on its merits and supported by capability appropriate to the client, environment and risk.

## AUSTRALIA

Primary base with national reach and access to operational and specialist capability.

## APAC

Regional access through trusted specialist relationships and partner capability.

## INTERNATIONAL

International coordination and local support where client requirements extend beyond Australia and APAC.

## NETWORK MODEL

Viktor Advisory remains independent of any single provider, allowing personnel and capability to be selected for suitability, experience and context.

## CLIENT OUTCOME

A single advisory-led point of coordination from initial requirement through planning and operational delivery.

## DELIVERY MODEL

Viktor Advisory provides advisory, planning, coordination and operational support. Delivery is structured through appropriate licensed personnel and specialist capability according to jurisdiction and requirement.

CONFIDENTIAL ENQUIRIES

# Protect what matters without losing sight of what matters.
